It was persistently rumored yesterday that Col. Murphy would also appoint two or more captains to-day. The men who were mentioned as sure to be promoted were Sergt. "Dinny" Grady, a close friend of Mr. Devery and now Doley's representative in the Detective Bureau: Sergt. Monarca of the Grand Central Station and Sergt. Paddy Cray of the East Twenty-second street station. Sergt. Cray is a brother-in-law of Tammany's Dock Commissioner, Charles Murphy. They were both at Police Headquarters vesterday for a long time. Not the least interesting thing in Mulberry street yesterday was the presentation to Deputy Commissioner Devery of a four-foot square picture of himself and a set of engraved resolutions by the new detective sergeants whom he and Col. Murphy are doing their best to help keep their jobs. Sergt. Sugden made the presentation speech, and Sergt Grady was his escort. Nobody except Devery's friends was allowed to see the picture or resolutions. It was rumored, though, that the principal and most effective part of them was the following: was the following:

DESIGNS FOR STREET SIGNS. West End Association Recommends Two Models to Preidents Cantor.

The West End Association, which has been agitating the need of better street signs for the city for some time, has prepared two models after considering several designs, which will be placed in position soon. These signs the association has recommended to Mr. Cantor, who assumes the duties of Borough President to-day, and it is hoped that they will be adopted and placed about the city if no better signs are offered.

The new signs were exhibited to several city officials yesterday. Among those who inspected and approved them was S. J. McCormick, Superintendent of Lamps and Gas of the Department of Water Supply. Gas and Electricity, who has held the post

for many years.

The signs proposed by the association are so newhat similar to the signs adopted by Gen. C. H. T. Collis when he was Commissioner of Public Works. One of the models on exhibition yesterday is to be illuminated by gas and the other by incandescent electric light.

The new sign is in the shape of a trapezoid with a base about one and one-half feet in length, the top sides five inches wider and the height fourteen inches. This broad, flat side is to face the avenues and the smaller end of the lamp, about 14x10 inches in size, will be turned toward the side street.

On the ground glass of the faces is printed in large letters the name of the avenue and the number of the building on the corner, while underneath in smaller letters is the name of the intersecting street.

ters is the name of the intersecting street.

The design of the lamp is simple and should give a stranger a clear idea of what part of the city he is in.

This does not, of cours mean that the office Borough Presidents I was inclined to believe that a deputy commissioner was not necessary, and I stood alone in that view of the matter. Subsequent study, however, and the advice of men who are experienced in the conduct of the departments of the city here and in the requirements of the amended Charter prove me to have been wrong. This matter, of course, lay with Mr. Red-field as the new Commissioner of Public Works, and he thoroughly coincided in works, and he thoroughly comedied the view that a deputy was necessary, and that his salary would be more than made up for by the fact that a contract clerk need not be employed.

Gives Beefsteak Dinner to His Staff and Reporters Who Covered His Office.

District Attorney Philbin gave a beefsteak dinner yesterday at a Broadway restaurant to the members of his professional staff and to certain newspaper reporters who have "covered" his office for the last year. It was his farewell.

Speeches were made by Assistant District Attorneys Blake, Gordon, Walsh and Delaney who are to leave and by Assistant District Attorneys Osborne, Schurman, Garvan, Byrne and O'Connor, who are to remain, as well as by two or three of the newspaper men. In opening the after dinner speaking Mr. Philbin proposed the totals. "The successor and the success of his administration." The Tammany speakers were in accord in saying that Mr. Philbin's trust in them had been a thing too highly prized to permit of its betrayal. Mr. Osborne said that he had set and through the administrations of a Democrat, a Republican, a Democrat and a Reformer and that the present staff was the one of which he could say that there was no weak spot, no one who could be suspected. It was agreed that Mr. Philbin had set an example of official life which might possibly be equalled but never excelled.
